Dear Montana Fish, Wildlife & Parks:

The Flathead Audubon Society (FAS) has reviewed the proposed amendments to ARM 12.7.502, 12.7.503, 12.7.504, and 12.7.505 pertaining to fish importation and we support adopting the proposed amendments pertaining to fish importation.

Adopting the proposed amendments would allow FWP to better manage the risks to the health of Montana fisheries and incorporate best available science to evaluate the risks.

Thank you for your consideration.
