June 29, 2017

Dear Ms Ivy,

The Flathead Audubon Society is a local chapter with deep concern for our environment. Our members are long-time and regular users of the area addressed in the Draft Environmental Assessment for the Whitefish Lake Watershed Project. We submit the following comments concerning the Draft Environmental Assessment.

After reviewing the document, the Flathead Audubon Society supports selection of the Secondary Alternative. The Preferred Alternative would be our second choice and is much preferable to the No Action Alternative.

Flathead Audubon Society supports the long-term conservation of forests and wildlife and fisheries habitat and feel that the proposed actions would be beneficial to the long-term conservation in the area. The proposed conservation agreement terms and management plans appear reasonable to conserve fish and wildlife habitat and allow forest management to continue.

Thank you for considering our comments.
